

syscall_entry

```
graph LR; A[syscall_entry] --> B[get_current_process]
```

A diagram showing a call from `syscall_entry` to `get_current_process`. The `syscall_entry` box is shaded gray, and the `get_current_process` box is white. A blue arrow points from the right side of the `syscall_entry` box to the left side of the `get_current_process` box.

get_current_process
