

kernel/drivers/block/floppy/floppy_dma.h

```
graph BT; A[kernel/drivers/block/floppy/floppy.c] --> C[kernel/drivers/block/floppy/floppy_dma.h]; B[kernel/drivers/block/floppy/floppy_dma.c] --> C;
```

The diagram illustrates a dependency structure. At the top is a box containing the header file path 'kernel/drivers/block/floppy/floppy_dma.h'. Below it are two boxes: 'kernel/drivers/block/floppy/floppy.c' on the left and 'kernel/drivers/block/floppy/floppy_dma.c' on the right. Two blue arrows point from the bottom of each of these lower boxes up to the top of the header file box, indicating that both source files depend on this header.

kernel/drivers/block/floppy/floppy.c
